PROJECTS

- AgriForge AI – Smart Agriculture Platform:** Built an LLM-powered agriculture system for crop classification, disease detection, and advisory insights with integrated crop calendar and market yard price analysis.
- Eunoia Homoeopathy – Professional Website:** Delivered a complete client-ready website from design to deployment including hosting, domain setup, and production deployment.
- Urban Intel AI – Smart City Governance Platform:** Built an AI system to predict urban risks such as water scarcity, traffic congestion, and health hazards. Trained six Random Forest models and integrated a local LLM (TinyLlama) for policy recommendations while ensuring full local data privacy.
- Mumbai Pulse – CityForge (NASA Space Apps Challenge 2025):** Developed a real-time city analytics platform using NASA Earth Observation data and created GIS dashboards for heat, air quality, and water monitoring.
- Smart Cattle Health & Milk Yield Prediction System:** Developed an AI-powered dairy management system achieving 90% milk prediction accuracy and 85% disease detection accuracy with dashboards and PDF reports.
- Coastal Threat Alert System:** Built an AI and satellite-data platform for coastal disaster alerts and designed role-based dashboards for multiple stakeholders.

HONORS AND AWARDS

- Winner – NASA Space Apps Challenge 2025 (Local Event)
- SSIP Funding Recipient – AgriForge AI selected for SSIP funding
- 1st Runner-Up – Ingenious Hackathon 7.0 (Ahmedabad University)
- Top 10 Finanlist – Game Jam : ITM University Baroda
- Top 40 Finalist – HackovateLJ 2025 (LJ University)
- Participant – HackOut 2025 Hackathon (DA-IICT)
- Certificate of Acknowledgement – Bharatiya Antariksh Hackathon 2025 (ISRO)
